**BOARD MEMBERS:**

- Amore Cianciola
- Sandra Halldorson
- Glenn Johnson

**2019 ANNUAL REPORT**

Greetings:

We would like to begin by sharing that during 2019 PASS started three new programs to address area homeless issues. Thank you for helping fund projects that are making a difference in the lives of many.

As you may know, Prescott Area Shelter Services (PASS) began serving the homeless population in 2007 and continues to have a wait list. Currently, the shelter serves up to 22 women and children of all ages and has a steady 87% transition rate into permanent housing. Structured programming allows guests to stabilize by providing hot meals, showers, shelter, intensive case management and solid connections to local resources. PASS’s holistic approach annually supports 150 individuals with the shelter operating 24/7 – 365 days a year. Your contributions have been instrumental in keeping the shelter operational and in affording us the opportunity to provide exceptional services to the women, families and veterans that have come through our doors. The exciting news is that the additional programs grow our target service number to serving 60 individuals at a time!

Education to Employability was the first new program we started in 2019. The program’s goal is to ensure all guests develop the personal qualities, skills, knowledge, understanding and attitudes that will give them a strong foundation for lifelong learning and work.

In the summer of 2019 PASS was offered an opportunity to open two transitional homes and so we started the PASS Transitional Housing Program. We are grateful for the opportunity to meet this need in the community; one house serves four single women and the other house three full families. Our last program is our Shelter Expansion Project. This project will add two studio rooms above our already existing community room, allowing us to serve at least eight more guests each night, specifically families with boys over 12 years old.

Each year we grow and expand our services at PASS to meet the need in our community. In 2019, PASS experienced a growth in services of 172.7%. We envision a community without homelessness and continue to strategically work towards that goal.

In looking to the future success at PASS, the Board has invited community partners to join us in planning the next step. Upon evaluation of the Strategic Plan we discovered we had accomplished most of the identified projects, so we developed a Victory Circle of our new goals for the next one to three years so that we continue to grow and address homelessness in many capacities.

The volunteers are an integral part of our success; the overnight advocates provide assistance to the guests, the meal providers provide an evening meal each night, the advocates are available in the evening for the guests and make sure the shelter is safe, and our office volunteers answer the phone and send out letters, along with other appreciated assistance.

The coming year will be busy and full of adventure. Our goals include self-sustainability and expanded grants and funding. We would love to have your expertise and skills at PASS. You can call the office at 928-778-5933 to get more information about how you can help.

The Board of Directors and 1 thank you for caring and helping. Our Board strives to meet the vision, mission and values of Prescott Area Shelter Services.

Join us in the year coming up to meet those values, vision and mission. Thank you for all you do and have a great year.
Dear Friends,

In a single second, anybody’s life can take a turn for the worse. It might be an illness, a house fire, an accident, a foreclosure, work layoffs, or a broken relationship. Most citizens cannot imagine being homeless. Because of this, those who are homeless are looked upon as being at fault for their situation. Those brought to that level are not pretentious people. In our shelter, no one is trying to climb a corporate ladder or pretend to be anything other than who they are. Nobody is worrying about wearing designer clothing or reading copies of fashion magazines.

Basic necessities such as food, bedding, clothing, and shelter from the elements are taken for granted by most Americans. Once these are taken away, most cannot cope with the sudden change.

That is where a homeless shelter begins by offering instant necessities, a temporary place to regroup and resources to support a person back into society.

We offer a 90 day stay at PASS with intensive and holistic case management services, along with educational classes, a savings program and financial assistance to ease the burden of high move in costs, all of which help women transition out of shelter. A amazing 87% of women served in our shelter, transition out into their own home.

Much of what we do in our shelter is simply listen and try to understand how we can help in the best way. Sometimes that is mentoring and guidance as well as holding people accountable for making progress while they stay at PASS.

We see many types of situations; it could really be multiple reasons of why they are here, but we welcome them with open arms and try to help them the best we can!

We want to thank each and every community member of the greater Prescott area, businesses, organizations, PASS Volunteers, PASS Board members, and local foundations for your ongoing support, because without it we wouldn’t be able to do all we do for women and children in need.

Carmen Frederic

Thank you to all of the individual donors who donate to the shelter! If you would like to see the list of individual donors, please click here.

Listed here are the businesses, organizations and foundations that supported PASS in 2019.
